				45	ATLANTIC SJC (8.22) (30)

FBOs acquired after July 1, 2015 are considered as they were, as independent FBOs or part of the other chain, for this survey.

**Landmark was acquired by Signature in Feb 2016. Acquisition excludes ANC, FAT, HPN, IAD, SDL, TRM.

Pro Pilot subscribers scored FBO selections from 1 (poor) to 10 (excellent) in 6 categories—Line Team, Customer Service Representatives (CSRs), Facility, Amenities, Promptness & Efficiency, Value for Price.

Ranking Criteria for US FBOs

For 2016 the total number of ranked US FBOs was 45. A minimum of 18 respondents with 6 categories giving 108 individual evaluations from PP subscribers was the threshold for ranking in the Top US FBOs.

Most Improved FBO—AirFlite LGB (Daugherty Field Airport, Long Beach CA)

This award is given to the FBO that made the largest gain in ranking position as compared with the previous year. AirFlite LGB didn't rank in the top 40 in the list of 2015 US FBOs but moved up into the 6th position in 2016. Hence, AirFlite LGB advanced by at least 35 positions to win Most Improved US FBO for 2016.

8	MERIDIAN	TEB	9.17	(9)					

Best Small FBO Chain (3–10)

	Scores	2015
1 WILSON AIR CTR (CHA, CLT, HOU, MEM)	9.06	(1)
2 JETCENTERS • (APA, COS, FNL)	8.95	(3)
3 CUTTER (ABQ, COS, DVT, PHX)	8.89	(4)
4 JET AVIATION (BED, CPS, DAL, HOU, PBI, TEB)	8.86	(5)

• Includes Denver jetCenter, Colorado jetCenter and Ft Collins/Loveland jetCenter.

Best Large FBO Chain (11+)

	Scores	2015
1 MILLION AIR	9.03	(1)
2 SHELTAIR	8.91	(5)
3 TAC AIR	8.87	(2)
4 SIGNATURE	8.80	(3)
5 ATLANTIC	8.77	(4)
6 LANDMARK ••	8.67	(6)

•• Signature completed the acquisition of Landmark on Feb 5, 2016.
Acquisition excludes ANC, FAT, HPN, IAD, SDL, TRM.

In the *Pro Pilot* PRASE Survey the definition of a small chain is 3–10 bases. A large FBO chain contains 11 or more. Those FBOs with only 2 locations are considered as 2 separate independents. FBO groups classified as networks are not considered FBO chains. PRASE judges established these definitions in 2011.

2016 PROFESSIONAL PILOT PRASE METHODOLOGY

Pro Pilot uses a 3-step process to ensure accurate PRASE survey results.

1 Ballots were sent to subscribers in 4 waves.

- PRASE forms were sent to subscribers in Oct 2015.
- Forms were sent with the Nov and Dec 2015 issues.
- An additional mailing was sent to *Pro Pilot* subscribers separately from the magazine in Jan 2016.

Subscribers were instructed to return their completed ballots to *Professional Pilot* in Alexandria VA. Cutoff date for the 2016 PRASE Survey was Mar 29, 2016. Late ballots were not scored.

Strict checking was done and no more than 1 ballot per participant was allowed. Voting was restricted to only qualified *Pro Pilot* readers. In categories where they compete, members of organizations or individuals were not permitted to submit ballots. Public relations, marketing and advertising personnel are ineligible.

Ballots are always checked thoroughly to ensure all information listed is current and correct.

Careful verification of FBO names is made since some names change because of mergers or acquisitions. The 2016 PRASE Survey received a total of 1916 ballots. Of those forms a total of 1333 met the *Pro Pilot* acceptance criteria and were used in the analysis. There were 583 ballots disqualified due to inconsistencies, errors, duplications, lack of information or lateness.

2 Qualified ballots were shipped to Conklin & de Decker to transfer the data from the original forms to an electronic database.

3 Database information was analyzed and tabulated by Conklin & de Decker at their headquarters in Arlington TX.

A precount as a preliminary step was accomplished followed by a final count to determine the rankings and winners. The winners list was finalized on Apr 8, 2016.

Detailed PRASE Survey results

Full details regarding scores in each category will be published in the May 2016 edition of *Professional Pilot* magazine. Expanded coverage with photos of winners and descriptions of activities will appear in the July 2016 issue of *Pro Pilot*.
